From: Detroit Recovery Project
Re: Mr. Robert E. Shakhan

This acknowledgement of appreciation is dedicated to the exceptional service provided by Mr. Robert Shakhan to the youth of the Supervised Treatment for Alcohol and Narcotic Dependency (S.T.A.N.D.) Program. Mr. Shakhan has demonstrated the model of a youth treatment provider who serves beyond the call of duty. His cohesiveness with the Treatment Team, patience with youth, use of evidence-based facilitation in groups as well as treatment provision, exemplifies a measure of holistic treatment necessary to inform youth through psychotherapy and psycho-education. Mr. Shakhan's service to youth includes that of a mentor, Recovery Coach, and influential leader. He has spent countless hours introducing the youth of S.T.A.N.D. to 12-Step meetings, behavior modification, and critical thinking that exposes them to possibilities beyond their immediate environments. It is without reservation that The Detroit Recovery Project presents this letter in recognition of exceptional service to Mr. Robert Shakhan.

Respectfully,

Rodney Allen
Clinical Director
